Akinkunmi Joseph AKANMU

(FullStack Software Developer)

No. 10, Olukotun, Feesu Iwo,Osun State.
Phone No.: 08133643937/09133587223
Email: akinjossy1298@gmail.com

Career Objective

Experienced Software Engineer with a strong background in Python, Django, Django REST API, and Restful API development. Skilled in designing and building high-performance, scalable, and secure web applications. Possess a proven track record of delivering successful solutions through collaborative teamwork and effective problem-solving skills. Passionate about continuous learning and staying up-to-date with the latest industry trends and best practices.

Technical Skills

- Programming Languages: Python, JavaScript, ReactJs,

- Frameworks/Libraries: Django, Django-REST-API, React

- Databases: PostgreSQL, MySQL, CocroachDB

- Cloud Platforms: AWS (EC2, S3, RDS)

- Version Control: Git, GitHub

- Testing/Debugging: Unit testing, Integration testing, Debugging tools

- DevOps: CI/CD pipelines

- Project Management: Project Lifecycle Mismanagement

- Tools : ISDP, Trello.

- Problem Solving: Process Improvement.

Professional and Academic Qualification

- Ekiti State University, Computer Science.   - 10/2022 till Present

- Osun State College of Technology, Computer Science.   -07/2019

Professional Experience

Software Engineer

HealthStarks, Lagos, Lagos State.   05/2023 – 11/2023

- Enhanced application performance by optimizing Django queries and implementing caching strategies.
- Developed scalable and maintainable RESTful APIs for seamless integration with frontend applications.
- Improved code quality with thorough unit testing, ensuring stability and reliability of backend services.
- Collaborated with cross-functional teams to deliver high-quality software within tight deadlines.
- Ensured data integrity and security through proper implementation of authentication and authorization mechanisms.
- Designed and implemented efficient database models using Django ORM, adhering to best practices for optimal performance.

Data Entry Operator

Micro Finance Bank, Iwo, Osun State.   03/2021 – 07/2021

- Collaborated across departments to ensure consistency and accuracy in shared database resources.
- Facilitated smooth transitions during company mergers by effectively consolidating databases from multiple sources.
- Expedited invoice processing times by accurately entering financial data into accounting systems.
- Demonstrated strong multitasking abilities by juggling numerous tasks simultaneously without sacrificing quality or accuracy.

Software Engineer

Bowen University, Iwo, Osun State.   08/2018 – 12/2018

- Enhanced project efficiency by streamlining communication between team members and

management.

- Developed innovative designs for engineering projects, resulting in improved functionality.
- Conducted thorough research to identify potential solutions for complex engineering problems.
- Implemented advanced project management tools to enhance collaboration and task tracking within the team.
- Implemented a robust quality control system, ensuring the delivery of high-quality engineering solutions and minimizing errors in project execution.

Project Manager

Axon Integrated Service, Gbagada, Lagos State.   01/2024 – 06/2024

- Successfully managed end-to-end project life cycle for multiple telecom infrastructure projects, ensuring timely delivery and adherence to budget constraints.
- Utilized project management tools (ISDP) to track project progress and deliverable.
- Prepared and presented project status reports to senior management and stakeholders, ensuring clear communication and alignment.
- Ensured compliance with industry standards and regulations, maintaining a high level of operational excellence
- Conducted post-project evaluations and lessons learned sessions to drive continuous improvement initiatives.

Languages

- English
- Yoruba

Volunteer Experience

- Participated in hackathons and coding competitions [Google Developer Student Club, Hactoberfest]

Interests

- Contributing to open-source projects
- Blogging about software engineering and technology trends
- Attending tech meetups and conferences

Referee
